Prettier formatter for Visual Studio Code

VS Code package to format your Javascript using Prettier and Standard. It uses prettier-standard under the hood. You can customize output by adding a `.prettierrc` file to your project.

Installation

Install through VS Code extensions. Search for `Prettier-Standard - JavaScript formatter`

Visual Studio Code Market Place: Prettier-Standard - JavaScript formatter

Can also be installed using

```
ext install prettier-standard-vscode
```

Usage

Using Command Palette

Open the command palette using Cmd+Shift+P on Mac or Ctrl+Shift+P on Windows and Linux. Then search for and select "Format Document".

You can format a part of your document by selecting the text you want to format, opening the command palette, and selecting "Format Selection".

Using Keyboard Shortcuts

The default vscode shortcut to format the current document is Shift+Alt+F.

Format On Save

Respects `editor.formatOnSave` in your vscode settings.

Contribute

This is my first Visual Studio Extension so I probably made some terrible choices. Feel free to open issues or PRs on the GitHub page!

Credit

This plugin started with a fork of esbenp's great plugin with cues taken from dtinth's atom plugin to apply standard to it.
